

BakkerElkhuizen - General delivery policy

Version: 012022

Delivery time

BakkerElkhuizen strives to deliver your order as quickly as possible. All our products on the website (except BE Safety Screens) are normally on stock. A standard delivery time according to the range, given in the table below, applies to these products. We would therefore like to ask you to wait until the maximum number of days given in a range, before sending us an inquiry regarding your delivery. If a product is not in stock (or not in sufficient quantities) at the time of ordering, you can expect an increased delivery time of plus 10 working days. For BE Safety Screens a special delivery time applies, as they are produced on demand. You always have the option of inquiring about the estimated delivery time by sending an email to info@bakkerelkhuizen.com. Please include your order number and your (company) name in your message.

Delivery Costs

BakkerElkhuizen wants to make deliveries as sustainable, fast, and cheap as possible. Especially for customers without individual prices, e.g., consumers or website guests without login, BakkerElkhuizen offers low levels for free delivery. Below a certain purchase volume, however, the calculation of reduced delivery costs is also necessary for this group of customers. Orders from business customers, resellers and wholesalers are always delivered at the shipping costs actually incurred, provided that the respective shipping costs limit is not reached. This also promotes responsible use of resources. Below you will find a table with the shipping costs and free shipping limits per region. All prices are net prices.
